Putting the personality back into events

Content

Launched, directed and administered by an unmatched global team of renowned government, R&D, academia, and industry leaders and experts*, MAST is focused firmly on delivering maximum **value and authority of data** in its conferences and a **totality of technology** in its trade-shows.

Subsequently MAST attracts the most comprehensive cross-section of maritime security and defense decision-makers (those responsible for the *formulation, development and implementation of policies, strategies and plans; and those who research, produce, evaluate, procure and deploy enabling technologies*).

Having established MAST in Europe as the foremost information/ networking event on *future maritime security and defense capabilities, concepts and enabling technologies*, 2010 sees the launch of the MAST Americas series under the **sponsorship of the US Navy (via NAVSEA/NUWC)**.

Context

Take part in MAST Americas, and you will see how readily it is differentiated from: 1) the ever-growing number of vast catch-all “marketing” exhibitions (with little/no content value, often impersonal, and driven by organisers’ revenue rather than their

supporters’ ROI); and 2) technical conferences that offer restricted networking opportunities.

Ensuring key security and defence ‘shareholders’ turn-up is only half of the MAST Americas’ equation in delivering maximum value and achieving its key objective of **total audience integration...**

Complementing the **international trade-show** (featuring world-leading and innovative suppliers of future and state-of-the-art platforms, systems and technologies), MAST Americas’ organisers will unite participants through various networking opportunities, inclusive, social functions (many free-of-charge**), and ‘matchmaking’.

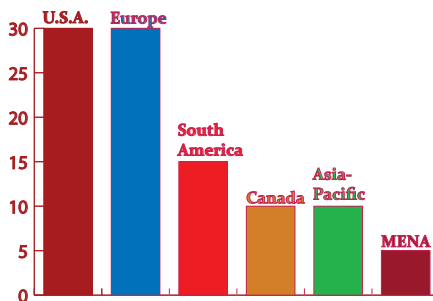

Contact

With all this located within the host hotel, you’ll find yourself at the heart of a growing, convivial community and MAST’s truly unique environment to promote **maritime partnerships for global security**.

However you take part in MAST Americas, you will make (and/ or maintain) vital contacts within the most comprehensive gathering of senior-level global maritime security and defense community anywhere. ***www.mastamericas.com/committee.asp** **E.g. Annual Super party is free-of-charge to delegates, VIPS, authors, exhibitors, committee members, and available at a nominal fee to visitors.
